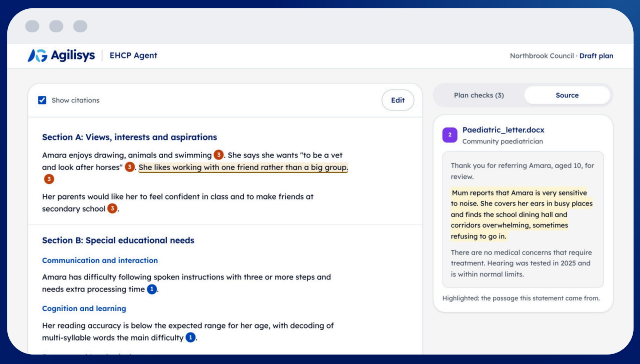
NCAS 2026 · Stand B31 · Liverpool · 11 to 13 November

YOUR COUNCIL'S AI PARTNER

AI designed with your services, for your residents.

We help councils redesign their services with AI. We work alongside your service areas, inside your Microsoft stack, so residents get a better experience and your people spend less time on admin.



How we work.

1 · IDENTIFY

Find the problem

Our team works inside the council, alongside the service.

2 · SCOPE

Redesign the work

We work out the right workflow before building anything.

3 · BUILD

Build in your stack

Built in your Microsoft environment, so you own it.

4 · MEASURE

Prove the impact

We track outcomes from day one.

And we leave you able to keep going. We leave behind the technical capability to run what we build, and grow your people's capability as we go. No point solution you have to keep paying for.

Why councils work with us.

20+ years in local government

We know how councils work, and have built securely in government environments for over two decades.

Social care experts

We support adult and children's social care, from the front door to assessments, EHCPs and annual reviews.

Service redesign, not just software

We don't hand over a tool. We redesign the service with you, so AI isn't built on top of a broken workflow.

Bespoke by default

Everything we've built started as a council's challenge. We build what your service needs.

The results so far.

53%

less effort per Freedom of Information request with our FOI Agent at Wigan Council

75%

average EHCP drafting time saved, with 40+ councils signed up to the EHCP Agent

95/100

Wigan's CQC assessment, which cited how it uses technology, including our assistant, to engage residents

What we've built with councils.

Live products and working demos from our work with councils. See any of them on Stand B31.

Adult social care

Adult Social Care Virtual Assistant

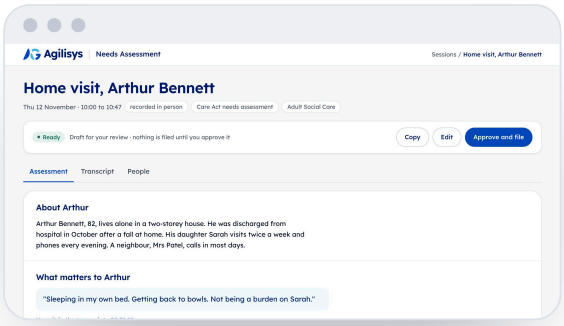
Helps residents and carers find the support available to them, so people stay safely at home for longer.

Needs Assessment Agent

From a recorded home visit to a draft Care Act assessment, with every need linked to what was said.

Case audit and strategic workforce audit

Audits assessments against your practice framework and turns them into supportive feedback and a strategic report for leaders.



Needs Assessment Agent: the draft assessment

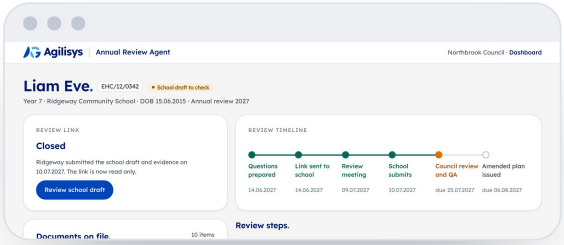
Children's services and SEND

EHCP Agent

Drafts Education, Health and Care Plans from the professional advice, with a citation for every statement and checks that flag gaps.

Annual Review Agent

Drafts the review questions, lets schools answer them in the plan with evidence, and quality checks the plan before it's issued.



Annual Review Agent: the case dashboard

Information governance

SAR pre-redaction

Collates the case files for a Subject Access Request, proposes redactions for a caseworker to approve, and builds the response bundle.

FOI Agent

Handles Freedom of Information requests from receipt to response, cutting the effort per request by 53% at Wigan Council.

TELL US YOUR CHALLENGE

We'll prototype it in 24 hours.

Record your challenge at our stand and we'll send you a working AI prototype within 24 hours.
