

Welcome to Ground Control...

Your one stop shop for all your external needs.

Grounds Maintenance

Our services include grass cutting and mowing to all forms of grass and lawn areas, flower beds and shrubberies, tree surgery, hedge cutting, line marking, nature conservation, weed control, playground maintenance and inspections, and much more. We'll work closely with you to ensure your sites are properly maintained and fulfil their role for visitors and customers.

Winter Maintenance

We offer a fully nationwide Gritting and Snow Clearance service on a planned preventative basis. We provide a specially tailored service by agreeing a site specific 'Trigger Point' with our client to activate attendance to each of their sites; a combination of ground surface temperature and climatic conditions. We receive specialist weather forecasts from the Met Office and other professional forecast suppliers to ensure best possible service delivery.

Landscape Construction & Fencing

We utilise the latest technology and practices to provide award-winning, cost effective, high quality landscaping services to completely transform your outside space. Our extensive experience and expertise allows us to provide a full range of hard and soft landscape construction services, and fencing solutions to clients across the entire country.

Tree Surveys & Surgery

We can advise you on Duty of Care, undertaking surveys, analysing data using our bespoke WOODPLAN Tree Management Software, providing structured management plans and undertaking tree surgery operations to keep your sites safe. Our qualified arborists use their vast experience, training and technology to deliver cost effective, problem-solving tree management.

Tree Replanting Service

Caring for our environment is at the heart of everything we do and as champions for the environment we have the expertise to help businesses achieve their sustainability goals and much more. Whilst there is significant energy and focus around tackling climate change, not everyone is in a position to do so. With Ground Control you can support an initiative that enhances and maintains our environment. For a minimum operational cost (of just £8), customers are now given the option for Ground Control to plant two trees on their behalf.

Landscape Design

We seek to provide innovative and creative landscape solutions that respond to the inherent contextual qualities of your site. Our wealth of experience and commercial minded, pragmatic approach ensures we deliver design led solutions that meet planning requirements and demonstrates a real understanding of the practicalities of implementing and maintaining landscapes for the future.

Vehicle ChargePoint Installations

Here at Ground Control, we understand the importance of "caring for our environment" and as experts at architectural landscaping and construction, we have partnered with the world's largest vehicle charging network 'ChargePoint™' to offer eco-friendly charging solutions for a more sustainable future. ChargePoint stations use innovative technology to provide a comprehensive, safe and reliable solution that adds value for your business, customers and employees, whilst helping you establish your brand as a green leader. With a dedicated app, cloud-based station management and flexible payment options, you can be assured that your visitors will always receive a premium experience.

Pest Control

Our BPCA Level 2 approved pest technicians give you the very highest standard of delivery and professionalism across a varied service: rodent control, bird management, specialist cleaning, wildlife management, fly screen and fly control. With open and honest transparent pricing, you will only pay for visits completed, ensuring total confidence in your service.

Pothole Repairs & Small Civil Works

We offer one-visit fix pothole repairs across the country. Our unique product allows us to repair potholes in any weather condition quickly and efficiently, which can be driven over immediately with no need for road closures. A safe alternative producing minimal environmental impact; our fuss free solution is there to stay, guaranteed up to three years. We also offer various small civil works such as drainage channel and manhole repairs, small concrete repairs internally and externally and full line marking.

Specialist External Cleansing

Our comprehensive Specialist Cleansing service includes gutter cleaning, pressure washing, canopy cleaning and gum removal. We also do Unique Environmentally-friendly graffiti removal. Utilising the latest technology and practices, we can deliver outstanding cleaning results. Our service is tailored to meet all client requirements, and always to a high standard.
