BRING YOUR TRAFFIC DATA TO LIFE

C2-CLOUD – AN INDUSTRY-LEADING SOLUTION

Drakewell's C2-Cloud is fast becoming the industry's 'go-to' software solution, delivering fast and accurate traffic data that is easily shareable via a web browser. Users are no longer tied to manufacturer-specific software and only need C2-Cloud and a browser to access their data which is securely stored, backed up and held on Drakewell cloud based servers available 24/7.

UNLOCK YOUR TRAFFIC DATA

C2-Cloud reports cover vehicle speed, volume, class, length, gap and weight. Binned and Per Vehicle Records are handled seamlessly. Vehicle/Bicycle/Pedestrian data, Link/Turning Movement counts advanced Weigh In Motion (WIM) reports and virtual WIM – all in one place.

PUT YOURSELF IN THE PICTURE

Powerful user interfaces make your traffic data come to life with over 300 reports, interactive map interfaces, graphical and tabular calendars, dashboards, graphs and charts. Advanced quality checking and patching ensure your data is accurate and validated.

FEATURES:

> 'LIVE' TRAFFIC DATA

> ACCURATE REPORTING

> EASY TO USE

> USER SHAREABLE DATA

> COST EFFECTIVE

> CLOUD BASED & CLIENT SERVER HOSTING

> AUTOMATIC QUALITY CHECKING & DATA VALIDATION

ADDITIONAL MODULES ENSURE YOU'RE ALWAYS IN THE PICTURE

RELEASE YOUR ENVIRONMENTAL DATA

UTILISE THE VALUE STORED IN YOUR EXISTING INFORMATION

Our Environment Module allows measured emissions at the roadside to feed live into C2-Cloud alongside vehicle attributes and journey times. It also offers derived emission reports, unlocking information from historical and future traffic data without actual roadside monitors.

> MEASURED OR DERIVED EMISSION VALUES

> TEMPERATURE ANALYSIS > NOISE & HUMIDITY ANALYSIS

A PARTNER FOR THE ROAD AHEAD

C2-CLOUD JOURNEY TIME — A USER FRIENDLY & POWERFUL MODULE

Our advanced origin-destination and real-time route based solution. User friendly interfaces offer summary and detail reports with powerful map-based displays. Supports ANPR (ALPR), Bluetooth and Wi-Fi data collection in real-time via our Instation or direct upload, with fast and accurate analysis.

> ANPR, BLUETOOTH & WI-FI SUPPORT > OD MATRIX > REAL-TIME

> PEDESTRIAN MONITORING > UTMC/ATMS > ROUTE ANALYSIS

RETRIEVE, PROCESS & MONITOR

C2-CLOUD INSTATION — A LOAD OFF YOUR MIND

Whether using the Drakewell Instation to capture live data via auto-polling/data push, or uploading your raw files using FTP, C2-Cloud can automatically process and validate the data for you, leaving more time for confident and timely reporting and sharing.

> DATA PROCESSING & VERIFICATION > REAL-TIME MONITORING

> RECORDER STATUS & HEALTH CHECKING

> SUPPORTS OVER 100 FILE TYPES

KEEP TRACK OF WHAT IS VALUABLE

ASSET & SURVEY MANAGEMENT

Our AM-Cloud modules offer traffic professionals efficient, user friendly options for the effective recording and controlling of their assets to allow the smooth running of traffic count programmes.

> SURVEY ADMINISTRATION, PROCESS TRACKING & COST MONITORING

> DRAKEWELL APP FOR FIELD USE > EQUIPMENT/PARTS INVENTORY

> ASSET DATABASE CREATION VIA LAPTOP/TABLET/SMARTPHONE
