

Solar Intelligent Platform (IP)

Take a flexible approach.

Hire our Solar Intelligent Platform (IP) for a flexible and responsive approach to your traffic or event management project. Simple and cost-effective to deploy it requires no civils or external communications.

MVIS will deliver an integrated, intelligent transport system (ITS) solution that meets your specific needs using Solar IP and any combination of VMS, ANPR, CCTV and Wavetronix HD radar. If things change, the Solar IP can be quickly and easily reconfigured.

Key Features

- Mobile
- Flexible
- Solar powered
- Energy independent
- Environmentally friendly
- Silent
- Cost effective
- Easily deployed

Technical Specifications

Trailer

Length (overall): 3000mm

Width (operating position): 1760mm

Height (travel position): 2500mm

Height (max operating position): 6600mm

Weight: 690kg

Power

Voltage: 12V, 24V, 48V

Solar panels: 2 x 250W panels

Operation: Batteries / solar
