

The Digital Companion for Remote Care

ENHANCING THE
QUALITY OF CARE

GenieConnect® enables local authorities and care providers to help vulnerable and older adults have greater independence and choice over their care needs

☆ Service Robotics is on a mission to enhance and enrich the lives of vulnerable and older adults with our GenieConnect® remote care service.

☆ By working in partnership with local authorities, GenieConnect® enables the delivery of greater flexibility and choice of care.

☆ A wide range of care outcomes linked to health management and emotional wellbeing are collected and reportable via the Genie dashboard.

☆ GenieConnect® remote care saves travel time and cost, allowing providers to deliver more care, and empower more people to live independently.

All data is stored in the UK
using Edge Computing

Technology Closed contact
groups are managed through
the Care Portal

Talk to our friendly UK team today about our reliable remote care service that improves health management and emotional wellbeing outcomes for your communities.

I look forward to meeting you
