BROCHURE**

MT is a spanish multinational company that manufactures and distributes products and accessories for the canalization and conduction of fluids in more than 40 countries. Since 1994 MT has been designing, producing and marketing a wide range of products for the hydrosanitary and industrial segment, including brass valves and fittings, stainless steel fittings, flanges and industrial valves, among others.

With a nice market presence, MT is positioned as one of the most complete companies in integral solutions for the conduction of fluids, key segment for the industrial sector, water and irrigation treatments, hydrosanitary uses, automation, instrumentation, etc. The aim of the company is the customer satisfaction, trying to give the best quality-price combination in more than 4,000 references, specially made for the professional distributor.

Nowadays, MT has a network of its own distributors in more than 12 countries, a subsidiary in Mexico (MT America) and clients in more than 40 countries.
