London Power

Tunnels (LPT2) Module

DVSA Earned Recognition

London Power Tunnels

(LPT2) Module

The London Power Tunnels Phase 2 (LPT2) project works involve building the tunnels and shafts for the second phase of National Grid's scheme to rewire the capital and replace existing electricity cables that are coming to the end of their life.

- 20 miles of tunnel over 3 sections
- 7 deep shafts (approximately 30m)
- 11km EHV cable
- Substation modification
- Utilities diversions

Through the DVSA Earned Recognition scheme Operators can demonstrate they meet the highest levels of compliance and road safety standards.

If you pass this module, it will help when you bid for this type of contract. Scan the QR code to get started.
