StarGo
POLARIS SOFTWARE

POLARIS

An end-to-end solution to manage highway licences and permits, StarGo optimises applications, approvals, issuance and enforcement of road and pavement licences.

For example: A-boards, skips, scaffolding, hoardings, TTROs, section 50s, cranes, bus stop suspensions and more.

SaaS
Cloud-based with minimal set-up and no re-keying of data.

Integrated
Integrates with DfT Street Manager and existing payment systems.

Efficient
Collect payments at the time of application.

Process-friendly
Application data is transferred to the back-office, reducing processing time.
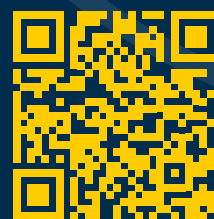

Automated
Set renewal reminders to increase compliance and cost recovery.

Self-service
Easy to use and intuitive interface helps applicants get what they need.

'StarGo has dramatically improved staff efficiency and cost recovery.'
KENT COUNTY COUNCIL

StarGo's three modules:

Applicants

An online portal to apply, renew and pay for highway licences.

- A secure account for permits, licences and council services.
- Store and review supporting documents.
- Track the status of applications.
- Apply via any device with an internet connection.

Back-office users

A solution to review, manage and approve the applications and compliance process.

- Authorise permits and licences with a single click.
- Create customised report templates.
- Use the integrated email tool to correspond with customers or internal teams.

Highway inspectors

A smartphone application to track permits in the field.

- Find active and inactive permits.
- Target enforcement using Google Maps.
- Issue FPNs for infringements.
- Print FPNs to Bluetooth printers.

Process any licence type with StarGo
