

The Best Gloves to Keep Your Hands Warm This Winter

With the harsh, cold winter weather arriving and temperatures continuing to drop, it's the perfect time to switch from your breathable, thin gloves to gloves that are more suited to protect your hands from the cold.

This is where Wonder Grip® have the perfect solution. Wonder Grip®'s WG-338 Thermo Plus is the perfect glove to keep your hands warm and protected during the winter.

Year after year, Wonder Grip®'s R&D team redevelop and improve our current range and the WG-338 Thermo Plus is no exception. The WG-338 Thermo Plus now has IT-compatibility making it the ultimate winter glove, if it wasn't already. With the ability to use your touchscreen device with your WG-338 Thermo Plus, this means you'll be able to keep your gloves on all day long, keeping your hands safe at all times.

With so many features and benefits, the WG-338 Thermo Plus has amazing versatility making it the perfect all-round glove for the winter. The variety of tasks the WG-338 Thermo Plus is perfect for is endless, from agriculture to scaffolder and contractors. If you have any outdoor work over the next few months, the WG-338 Thermo Plus is a must need.

Availability in sizes 6 (XS) to 11 (XXL) and plenty of stock, now is the perfect time to get your hands on some WG-338 Thermo Plus gloves.
