

Salvus[®] TURBO TORCH

from
NAVIGATOR[®]

PRODUCT CODE

ANGTFG

The SALVUS gas Turbo Torch is suitable for use with propane and MAPP gas disposable cylinders.

Boasting a high burn temperature and adjustable flame, the burner tube can be rotated 360 degrees for easy access and optimum operating conditions.

With long lasting brass internal components and a 3 year warranty, the SALVUS gas Turbo Torch also has a self-ignition system, a temperature control valve and a trigger lock.
