Community support at your fingertips

Our easy-to-use voucher platform is the ideal solution for quickly and securely distributing funds within your community.

Evouchers support local authorities, housing associations, schools and charities to efficiently distribute funds providing support and welfare where it's needed most.

Free school meals

Retail and home essentials

Groceries

Winter warmth support

...And much more!

We are dedicated to facilitating quick and easy access to support within communities, and we are unwavering in our commitment to making a positive impact.

What sets us apart?

Through our sister company, Wonde, Evouchers can integrate with schools' Management Information Systems (MIS). This secure connection allows schools to share relevant data such as FSM-eligible students and their parent/guardian contact details with Evouchers. This then enables schools to easily send vouchers out to eligible families in just a few clicks, saving school administration time, reducing data sharing concerns and ensuring no child is left behind.

Who is Wonde?

Wonde is a powerful, easy-to-use, GDPR compliant digital solution for schools to securely and easily control, maintain and safely share relevant data with third-party applications. Wonde is well established in 95% of the primary and secondary schools in the UK and integrates with all major MIS's. Wonde collaborates with local authorities and the Department of Education on data initiatives, establishing best practices in school data management.
