

**QUICKVIEW  
360**

# **1** MANHOLE EVERY **5** MINUTES

Manhole inspection doesn't have to be costly and tedious. With the Quickview 360, a single operator can scan up to 80 manholes per day. Results stream to the cloud for easy storage, sharing and analysis.

The Quickview 360 captures 4K panoramic video, uses AI\* to automate defect and feature coding, and auto-generates a report. It also delivers a full 3D model that can be measured, annotated and exported to CAD.

- ▶ **AI CODING\* OF OBSERVATIONS**
- ▶ **REPORTS GENERATED AUTOMATICALLY**
- ▶ **WIRELESS UPLOAD TO CLOUD**
- ▶ **VIRTUAL PAN/TILT VIDEO FOOTAGE**
- ▶ **3D MODEL WITH MEASURING TOOLS**
- ▶ **POINT CLOUD EXPORT TO CAD**

# STREAMLINE MANHOLE INSPECTION

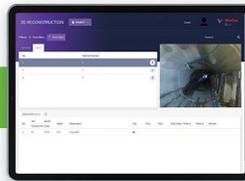

1

Enter basic inspection details like asset ID, inspector, address, etc.

2

Lower camera into manhole, following prompts from app.

4

Review footage on WinCan Web with virtual pan/tilt. Analyze, edit and share inspections; download reports.

3

When done, upload inspection to WinCan Web via wireless broadband.

5

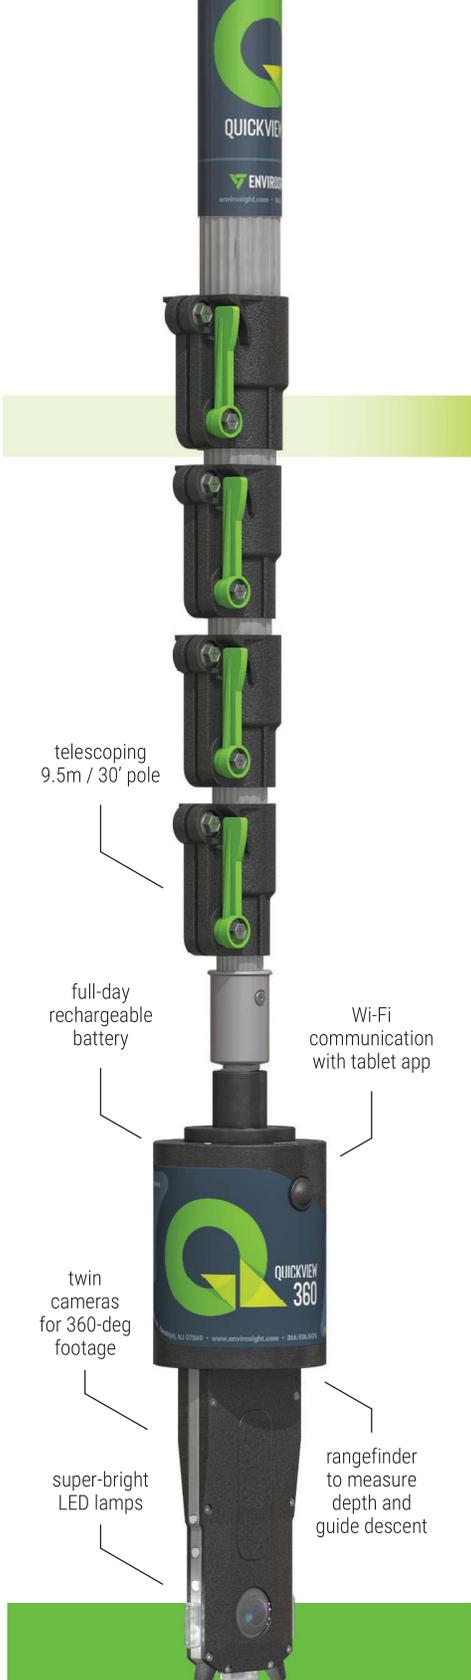

Measure, annotate and export a 3D model of the manhole.

## HINTS:

- Tablet not included
- WinCan Web can then be used after the 1-year subscription with a paid subscription

## COMPATIBLE WITH:
