Engineering specialist secondments

Waterman Aspen welcomes engineers and technical specialists to make their mark on some of the biggest infrastructure projects across the UK on a secondment basis.

With around 900 colleagues, we have built careers and provided technical expertise to our clients for 35 years.

Working right across the engineering spectrum, from major national infrastructure projects to smaller scale local schemes which require specialist support.

Mission

We will support our colleagues, clients and partners to be the best they can possibly be. In doing so, we will always seek to make a positive impact on people, places and the environment as we strive responsibly for shared success. We will remain true to our philosophy that work should be fun and enjoyable as well as professional and productive.

Vision

To always be recognised for the quality of every single colleague seconded to support our clients' projects. To proudly uphold the Waterman Aspen gold standard for providing good people with the right specialist engineering skills and technical expertise across multiple sectors. As we continue to grow, to always maintain a warm, friendly, and family-orientated environment for our colleagues.

Right people, right place, right time

Our bespoke secondment model embeds skilled engineers and technical people within your team – for as long as you need them.

““In the many years we have worked together, I have found their approach to be exemplar and we have a relationship built on trust and true collaboration.”

Jamie Missenden

Regional Manager, Galliford Try

Our sectors

Working right across the engineering spectrum, from major national infrastructure projects to smaller scale local schemes which require specialist support.

Town
Planning

“Without the assistance of Waterman Aspen staff, we certainly would have struggled to meet our aims and objectives and this would have had a negative impact upon my team, the county council and the residence of Derbyshire we serve.”

Simon Tranter

Head of Traffic and Safety Service,
Derbyshire County Council

Ongoing support

Our colleagues are carefully managed and mentored throughout their careers with Waterman Aspen, with active memberships with CIHT, ICE, CIWEM, CMI, IHE and APM and more.

We provide a structured approach to developing our colleagues' skills, finding them secondments that perfectly match their specialisms. They want to be there, because they're the missing piece in your team.

"Waterman Aspen have supplied several valuable people to Oxfordshire County Council which have supported the work of the authority. They provide valued advice, continuity and commitment to the council and project objectives."

Hannah Battye

Head of Placemaking,
Oxfordshire County Council

Our clients & partners

Our specialists become part of your team, providing the expertise you need, for as long as you need.
