

LEAD THE FUTURE OF EHCPs WITH AI-POWERED DRAFTING

The intelligent fusion of deep SEND expertise with cutting edge generative AI

VITA transforms hours of manual synthesis into minutes of AI-powered EHCP first drafting. Purpose-built for the demands of your SEND service. Co-designed with SEND professionals, guided by a board of trusted advisors and supported by the government's Innovate UK Smart Grant.

Precision-built for SEND

Trained on SEND best practice, national guidance, and Ofsted quality frameworks built bespoke for the sector.

First-draft generation

Upload multiple professional reports and receive a comprehensive, structured EHCP first-draft in minutes in your localised template.

Citations & transparency

Cross-reference plan content against source reports and document highlights to see precisely where information is sourced from.

Built-in quality assurance

Targeted section-level feedback flags gaps before the plan reaches families, helping you meet Ofsted expectations consistently.

"It is the bespoke and comprehensive nature of VITA that resulted in our decision to commission this solution. VITA's citations, contradiction detection, and quality feedback will significantly enhance our EHCP workflow."

Debbie Edmonds - SEND QA & Practice Development Manager, Kent County Council

See VITA draft an EHCP live.

Book a 30-minute demonstration today, and your teams can start using it to draft plans with our free trial. Visit [Invision360.com](https://invision360.com).
