OUTCOMES STAR

More than measurement

Outcomes Star embeds outcomes measurement within person-centred support.

By making change visible, Outcomes Stars help you:

- Consistently understand, evidence and improve the impact of your work
- Provide holistic, person-centred and enabling support through collaborative and relational practice

How it works

The Star guides collaborative conversations that are person-centred, strengths-based and trauma informed.

Using the Journey of Change, practitioners and clients agree Star readings together, focusing on agency and motivation rather than simply measuring severity. These readings shape targeted action plans, whilst multiple Stars over time reveal the progress being made, visibly.

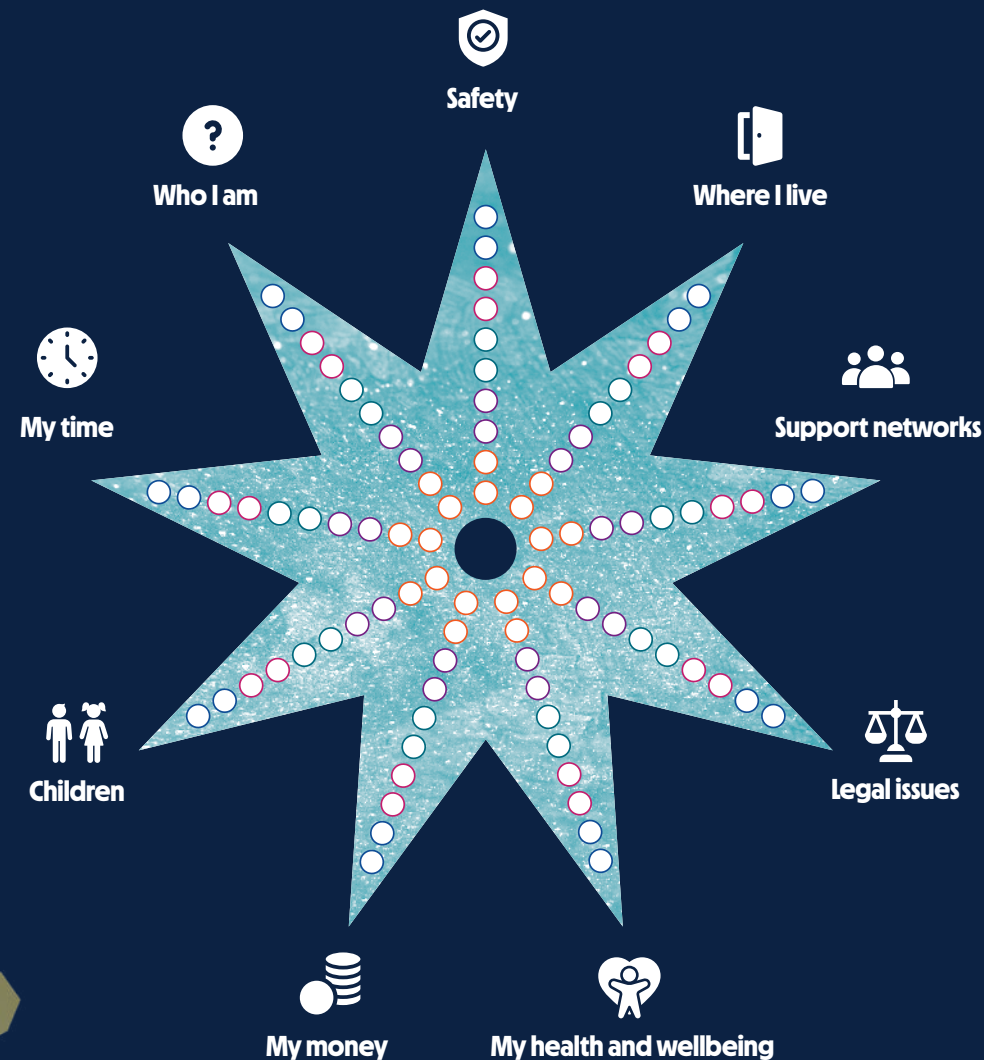

Why it works

The Star celebrates the powerful small changes that matter most to people's lives. Its whole-life framework keeps the person at the centre whilst connecting what's happening on the frontline to what funders need to see.

Rather than feeling like another questionnaire, the Star is embedded within practice itself, with ready-made versions shaped by the services and sectors that use them.

Whole-life outcomes framework, tailored to sector

Star and Journey of Change from Empowerment Star™ for domestic abuse sector

Underpinned by evidence-based Journey of Change
